

I have COVID 19 / Coronavirus

- I have a cough.
- I feel hot.
- It is hard for me to breathe.

I will tell the staff who can call the doctor.

I will be told to stay in my room and wait for a doctor to come to test me.

The doctor might wear strange clothes.

The doctor will swab my nose and throat and take my temperature.

I must wait 1 – 2 days for the results.

If the test says I have COVID 19 / Coronavirus then I must stay away from other people.

Staff will help me for two weeks.

Some of the familiar staff might have to stay at home.

This means there might be some different staff.
All staff are here to help me.

Staff will wear protective clothes and face masks.

Staff will clean everywhere that gets touched (like door handles and counter tops).

Staff will also wash my clothes on a hot wash.
