

**Additional Clarification regarding Catherine's funding following conference questions at Next Steps Dissemination Event 24 March 2014.**

**Catherine's new home support was funded through:**

- Catherine's funding which was historical in nature and related to her residing on a unit in a congregated setting.
- No additional funding received from any external bodies.
- Funding was sourced to support Catherine's individual arrangement through cost savings measures implemented within the organisation,
- The coordinator worked in partnership with the family to figure out how the move could happen successfully.
- This arrangement from its conception had to be viewed as a long-term sustainable arrangement.
