FUND DESCRIPTION

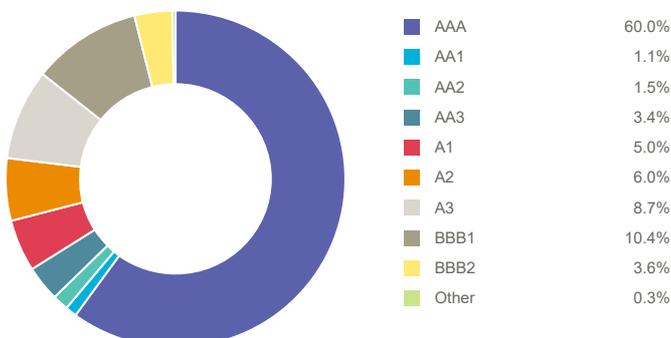

This fund invests in a blend of indexed bonds, including government and corporates, trying to match the movement in annuity prices. The bond mix is reviewed periodically and can be updated. This fund aims to broadly follow the long-term changes in annuity prices due to interest rates which are just one of the main factors that determine annuity prices. However, there could be times when the fund will not track annuity prices closely and the fund is not guaranteed to track annuities prices.

Warning: If you invest in this product you may lose some or all of the money you invest.

BOND COUNTRY DISTRIBUTION

BOND PORTFOLIO CREDIT QUALITY

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.

This fund is provided by Irish Life Assurance plc and is managed by Irish Life Investment Managers.
